

Price Sheet

 gateway 6 direct

Communication: Q AMR C-Mode

The **Q gateway 6 direct** receives data of all **QUNDIS metering devices in C Mode** as well as **wM-Bus compatible, unidirectional meters in C- and T Mode from other manufacturers** within the direct reception range. Data transmission is via **mobile radio (NB-IoT / LTE-M)**. The Q gateway 6 direct is equipped and delivered ex works with a SIM card. All administrative and data acquisition tasks are performed via the QUNDIS Smart Metering Platform (Q SMP).

Important note: The Q gateway 6 direct is only sold in combination with the booking of a QUNDIS Gateway Service Contract (GSD) with a minimum contractual period of five years.

If you wish to use your own SIM card and data cloud solution (without Q SMP), please contact your QUNDIS sales representative.

Please note! Excluded from repurchase.

Product description	Group	Qty.	Part no.	Price (€)
Q gateway 6 direct - battery supply degree of protection IP42	6Z	1	GW61 0110 0300 00000	399,00
Q gateway 6 direct - battery supply degree of protection IP65	6Z	1	GW61 0110 1300 00000	on request
